

Are you a Snooker or Billiards player and is your involvement dependant upon a place in a pennant team, or even just as a very interested spectator?

Do you ever wish you could get closer to the action when the century break players are at the table so as to pick up a couple of pointers, or just to get a really good view of the skills on show?

Do you wish to know the rules a little better and has the thought that knowing them whilst an opponent is a little more ignorant of them may be a way to gain a small, or even a big advantage?

A career as a referee for either or both disciplines may be the way!

The brother/sisterhood of the Victorian referees is one that you may consider joining. It is a group where all the members are jealous of the reputation it holds and will do everything to grow and enhance it. You will benefit from all the collective knowledge and be nurtured at every stage during your early steps into a new and rewarding career.

Referee courses are now available and will consist of three Keynote presentations outlining all the rules, with diagrams, explanations and animations for all of them. These seminars will take place over three consecutive weeks and will include a practical seminar on the fourth week.

Accreditation will allow you to adjudicate in any and all matches Australia wide and some overseas matches and to receive the fees allocated to each of them. You will gain the respect of the Australian Billiards and Snooker community and of the wider community in general and possibly and most importantly, your immediate circle of family and friends.

If you have any interest please contact me for further details.
