In the pre 2015 Seeding, you can see that the seeds were manipulated by 1 on the basis that the last 32 would be re seeded. It did not work as expected. In recent years the most common complaint has been from players that met in the round robin meeting the same player in the round of 16.

On that basis have put the group stage back to the correct seeding and manipulated the seeding in the last 32 stage to add to 16 or 18 instead of the correct 17. Effectively this moves the group runners up to the opposite side of the draw. The only way players that have met in the group stage, to meet again, is in the final.
