NOTE 1:

If an intending player is not listed above AND that player has participated in this discipline in this Association's competition during recent years, the team captain should check the History files published on the Association's website to obtain the most recent end-of-season handicap allocated to that player.

NOTE 2: For all other situations, Rule 19.4 states:

"The Team Captain shall assess any NEW player in his team and determine an appropriate initial handicap that accurately reflects the player's ability. If a new player's actual performance is considered by the Statistician to not accurately reflect the handicap allocated by the team captain, the Statistician shall contact appropriate delegates or captains to discuss the matter. In situations where the Statistician, following such discussion, deems that a new player has gained an advantage through allocation of an inappropriate handicap, the provisions of Rule 19.8 shall be applied and a revised handicap shall be determined for the offending player's next match."
