| John Eltringham | -25.5 | 23 | | Wayne Clack | -23.5 | 23 |
| John Grubb | 6 | 29 | | | | |

Handicaps to be adjusted every four weeks. Minus one per winning frame, plus one per losing frame.

Results from round 17 onward don't count towards handicaps with the following exception:

Participating players of the winning grand final team will lose 5 points each from their handicaps.

Low handicap starts on zero, high handicap starts on the difference between handicaps.

eg: Bob's handicap is 28, Fred's handicap is 47, the starting score would be Bob 0, Fred 19. (47-28=19)

No matter what the handicap difference is the maximum start any player can get is limited to 30.
